

UNDERWATER LED LIGHT PACKAGE

Total coordination of all water environments and with Universal ColorLogic LED Lighting.

Easiest 1.5-inch lights to install at just 4 inches below waterline and in as little as 8 inches of PVC conduit.

Ideal for lighting full pools or spas, or highlighting steps, water features, baja shelves, bubblers, spray/splash pads and more.

Can be installed in wet or dry/landscape applications.

Lasts 10 times longer than incandescent lights.

Available in two brightness levels with multiple cord lengths.

Vinyl, Fiberglass, and Concrete low-profile installations.

Comes with simple installation tool.

UL-listed for safe floor or wall installation.

ColorLogic 320 & 160 lights provide 10 fixed colors and 7 color-changing shows.

300W Transformer
